

Perforated metal bench with cloud silver finish

Ipe wood bench with textured black legs

morelli bench

The Morelli bench's elegant and timeless design visually enhances outdoor public spaces. A choice of materials, widths, and finishes allows the bench to respond to the unique needs of each environment; including indoors.

CONSTRUCTION

- Solid aluminum cast legs
- Zinc plating for outdoor installations
- Floor mounting required

APPLICATIONS

- Airports, bus, rail and ferry terminals, office buildings, courthouses, hospitals, recreation centres, shopping malls, parks, and schools.

"Given the nature of this bench, the materials used permits great flexibility for integrating the design into different spaces while complementing the other furniture around it."

- Michel Morelli
